PRIMARY SCHOOL POLICY FOR SUPPORTING PUPILS WITH MEDICAL CONDITIONS AND FOR THE ADMINISTRATION OF MEDICINE

This policy was adopted by The Dartmoor Federation Governing Body on

19th January 2017

Dartmoor Federation Primary Schools:

- Boasley Cross Primary
- Bridestowe Primary
- Exbourne C of E Primary
- Lydford Primary
- Northlew & Ashbury Parochial C of E Primary

1. The staff of The Dartmoor Federation wish to ensure that pupils with medical needs receive proper care and support. Our intention is to ensure that pupils with medical conditions should have full access to education including outdoor education, off-site visits and PE. The governing body will ensure that staff are supported trained and competent before they take on the responsibility of supporting pupils with medical conditions. These underlying policy aims are reflected in the equivalent policy for The Dartmoor Federation Primary schools.
2. The Federation's insurance will cover liability relating to the administration of medication.
3. The Head of School, the SENCO, and Health and Safety Co-ordinator are responsible for ensuring the following:
 - (i) Procedures to be followed when notification is received that a pupil will be attending who has a medical condition (including transitional arrangements between schools, re-integration or when pupils' needs change, arrangements for staff training or support):
 - contact School Nurse Service to arrange IHCP Meeting with parents/guardians and relevant College staff and health professionals

- where necessary, agree IHCP and disseminate to relevant College staff via Staff briefings and SIMs
 - arrange additional training for staff who come into contact with pupil subject to IHCP
 - review curriculum activities risk assessment of relevant faculties *if required* in respect of IHCP
 - monitor IHCP termly and communicate with parents regarding any changes in conditions identified in IHCP
 - adjust IHCP if required to meet additional or reducing support requirements
- (ii) Procedures to be followed in respect of home-to-school transport:
- on application, and where applicable, advise parents/guardians to apply to DCC Transport Co-ordination Service for a place on a school bus
 - liaison with DCC Transport Co-ordination Service about pupil IHCP and support required on journeys to and from school
 - monitor and review as highlighted above
4. The above procedures will be monitored and reviewed by the Heads of School.
5. Where identified as being necessary, Individual Health Care Plans (IHCP) will be developed between the Heads of School, healthcare professionals and parents so that the steps needed to help a pupil manage their condition and overcome any potential barriers to getting the most from their education are identified. The IHCP will include:
- a) The pupil's medical condition, its triggers, symptoms, medication needs and the level of support needed in an emergency. Also it must include any treatments, time, facilities, equipment, testing and access to food or drink (where it is used to manage their condition), dietary requirements and environmental issues such as crowded corridors and travel time between lessons
 - b) Specific support for the pupil's education, social and emotional needs, such as how will absences be managed, requirements for extra time to complete exams, use of rest periods or counselling sessions
 - c) Who will provide this support, their training needs, expectations of their role and confirmation of proficiency to provide support from a healthcare professional
 - d) Cover arrangements and who in the school needs to be aware of the pupil's condition and the support required including supply staff
 - e) Arrangements for written permission from parents for medication
 - f) Arrangements or procedures for off-site visits or other school activities outside the normal timetable; completion of risk assessments for visits and school activities outside the normal timetable
 - g) The designated individuals to be entrusted with the above information
 - h) Procedures in the event of the pupil refusing to take medicine or carry out a necessary procedure
6. The Heads of School will have the final decision on whether an Individual Health Care Plan is required.

- Exbourne C of E School Office
- Lydford Kitchen
- Northlew & Ashbury School Office

14. However, where required medications will be refrigerated in a secure location away from pupil access. Also, medicines such as asthma inhalers, adrenalin pens and blood testing meters should be readily available to the pupil and will not be locked away. In particular, it is essential that pupils with asthma have immediate access to their reliever inhalers whenever they need them. If the parents wish the pupils to carry their inhaler, this should be identified in the parents'/carers' written request. If the pupil is too young or immature to take personal responsibility for their inhaler, staff should make sure that it is stored in a safe but readily accessible place and clearly marked with the pupil's name. Most pupils with asthma will have an Individual Health Care Plan where these details are clarified.
15. It is the responsibility of parents/carers to notify the school if there is a change in medication, a change in dosage requirements, or the discontinuation of a pupil's need for medication.
16. Staff who volunteer to assist in the administration of invasive medication will receive appropriate training/guidance through arrangements made with the School's Nurse Service.
17. The Dartmoor Federation will make every effort to continue the administration of medication to a pupil whilst on activities away from the premises.

Grievance Procedure

18. Any grievance parents/carers may wish to raise in respect of this Policy or the conduct of Federation staff responsible for undertaking the duties highlighted within it will be dealt with appropriately using The Dartmoor Federation Grievance Procedure. A copy of this procedure is available on the website.
